LOCAL BURGER KING® RESTAURANTS OFFER FREE WIRELESS INTERNET SERVICE

Bennett Management Corp., owners and operators of the Burger King restaurants located in the greater Toledo, Ohio and Monroe, Michigan areas announces that its restaurants now offer free wireless Internet access to its guests. **It is the largest free Wireless Network in the Toledo Metropolitan area.**

That's right...customers visiting any local Burger King restaurant can now get on line with the freedom of Wireless Access. They can surf the Internet, check their email, and shop online all from the convenience of their own computer.

Getting on line is quick and simple, no user names or passwords required, according to Jim Ruble, I.T. Director of Bennett Management. All one needs is a laptop computer and a wireless access card (802.11b compatible and WiFi compliant).

If you're on the go, go to Burger King, Home of the Whopper®!
